Note: As of April 2020, Australia has moved to reporting periods that coincide closely with each calendar month. Reporting periods are either four or five weeks in length, depending on the month. All metrics are based on average week, allowing comparisons to be made from one reporting period to the next.

To view the updated calendar, please visit <https://www.tritondigital.com/resources/podcast-reports>

POWERED BY PODCAST METRICS

Triton Digital's Podcast Metrics measurement service is certified by the IAB Tech Lab as complying with Version 2.0 of the IAB Podcast Measurement Technical Guidelines.

ABOUT THE AUSTRALIAN PODCAST RANKER

The Australian Podcast Ranker lists the Top 100 Australian podcasts from participating publishers that are consumed by listeners located in Australia.

The All-Australian Top 100 Category Ranker lists only the Top 100 Australian podcasts commissioned by an Australian publisher, consumed by listeners located in Australia.

There is potential to add further data by publisher and program in the future. Additional publishers will also join the rankers.

ABOUT THE METHODOLOGY

The Australian Podcast Ranker is based on a 4-week reporting period. The entities listed are ranked by Average Weekly Downloads (Monday to Sunday) in accordance with the latest IAB Podcast Technical Measurement Guidelines.

Downloads are defined as unique file requests that were downloaded.

This includes complete file downloads, progressive downloads, as well as partial downloads in accordance with the IAB Podcast Measurement Technical Guidelines v2.0 filtering rules (i.e. spiders and bots, data centers, one-minute of content minimum download, etc.). "Unique" filters multiple requests from the same IP address, user agent, episode, and date.
