# TRITON DIGITAL'S WEBCAST METRICS<sup>®</sup> MONTHLY RANKER

## **ABOUT WEBCAST METRICS®**

The Webcast Metrics streaming measurement service is the industry standard for online audio consumption data. It provides credible, validated data that enables audio publishers around the world to analyze the consumption of their audio content by daypart, device type, geography, distribution platform, and more.

## **ABOUT THE RANKERS**

The Webcast Metrics® Rankers are a listing of the top performing digital audio publishers and networks as measured by Triton's Webcast Metrics streaming measurement service.

Publishers are ranked globally, and in three distinct regions: US, LATAM, and EMEA.

- The Global Publisher Ranker verifies the quantity of streams without qualifying where they are being consumed.
- The regional rankers quantify consumption based on listener location.
- All metrics within the Webcast Metrics rankers include both ad supported and non-ad supported listening.

## ABOUT THE RANKINGS

Rankings are computed on the basis of Average Active Sessions (AAS), with Session Starts (SS), and Average Time Spent Listening (ATSL) also displayed.

## UNDERSTANDING THE METRICS

**Average Active Sessions** or **AAS** represents the average number of sessions at any point in time in the reported time period, with invalid sessions omitted. AAS can be calculated by dividing Total Listening Hours by the number of hours within the reported time period ( $AAS = TLH / \text{Hours in period}$ ).

**Total Listening Hours** or **TLH** is defined as the total number of hours that the station/publisher has streamed during sessions with a duration of at least one minute in length within the reported time period. Any/all invalid sessions are omitted.

**Session Starts** or **SS** is defined as the number of sessions with a minimum duration of one minute in length that were started within the reported time period. Any/all invalid sessions are omitted.

**Average Time Spent Listening** or **ATSL** is defined as the average number of hours for each session with a duration of at least one minute in total within the reported time period. Calculated as total time spent listening divided by active sessions.
