Unleash the Power of Programmatic to Generate Revenue

Support for Various Deal Types

The a2x marketplace is built to provide control over how your audio inventory is bought and sold, with support for both open auction as well as direct programmatic deals. Integrations with a number of industry-leading Demand Side Platforms (DSP) provide buyers all over the world with access to your inventory.

Yield Optimization

Leverage Yield-Op, our audio-first Supply-Side Platform (SSP) that was built from the ground-up to provide you with advanced controls to manage demand and optimize yield for your inventory.

Multi-Channel

Reach your target audience with the right message at the right time across all of their go-to devices, including smartphones, tablets, desktop computers, smart speakers, and more.

Real-Time Analytics

Access real-time insights into your programmatic data with comparison metrics, multi-dimensional analysis, interactive filtering, and proactive alerts to gain a better understanding of

Additional Benefits

- Monetize in and out-of-market listeners
- No upfront costs
- Manage pricing tactics
